CTET Free Study Notes

Central Teacher Eligibility Test — conducted by CBSE. Prepared by PracticeMockTest (practicemocks.in). Always confirm details in the official notification.

Exam pattern

Paper I: Classes 1–5, 150 questions, 150 minutes
Paper II: Classes 6–8, 150 questions, 150 minutes

Syllabus checklist

- ☐ Child Development & Pedagogy
- ☐ Language I & II
- ☐ Mathematics
- ☐ Environmental Studies / Science / Social Studies

Study plan tips

1. Read the official notification first and note eligibility, dates and the exact pattern.
2. Split the syllabus into weekly targets; finish each topic with 20–30 practice questions.
3. Take one full timed mock test every week, then review every wrong answer.
4. Keep a one-page formula/fact sheet per subject and revise it daily.
5. In the last month, focus on mocks, revision and previous-year papers from the official site.

Practice questions with solutions

1. According to Piaget, the stage of 'concrete operations' is roughly ages:
A. 0–2 B. 2–7 C. 7–11 D. 11+

Answer: C. Piaget's concrete operational stage spans about 7 to 11 years.

2. The 'Zone of Proximal Development' was proposed by:
A. Piaget B. Vygotsky C. Skinner D. Kohlberg

Answer: B. Lev Vygotsky described ZPD: what a learner can do with guidance.

3. Which is the smallest prime number?
A. 0 B. 1 C. 2 D. 3

Answer: C. 2 is the smallest (and only even) prime number.

4. Which gas do plants mainly absorb for photosynthesis?
A. Oxygen B. Nitrogen C. Carbon dioxide D. Hydrogen

Answer: C. Plants take in carbon dioxide and release oxygen during photosynthesis.

5. Continuous and Comprehensive Evaluation (CCE) mainly aims to:
A. Rank students B. Assess holistic progress regularly C. Replace teaching D. Conduct only yearly exams

Answer: B. CCE assesses all-round development through ongoing, regular evaluation.
